VOLUME CONTENTS

Volume 50, Issue 1, January 2005

Original Articles

1 *Martin Brändle, Ilka Westermann and Roland Brandl:* Gene flow between populations of two invertebrates in springs

10 *Melanie C. Beckmann, Franz Schöll and Christoph D. Matthaei:* Effects of increased flow in the main stem of the River Rhine on the invertebrate communities of its tributaries

27 *María A. González Sagrario, Erik Jeppesen, Joan Comà, Martin Søndergaard, Jens Peder Jensen, Torben Lauridsen and Frank Landkildehus:* Does high nitrogen loading prevent clear-water conditions in shallow lakes at moderately high phosphorus concentrations?

42 *Barbara L. Peckarsky, Jane M. Hughes, Peter B. Mather, Mia Hillyer and Andrea C. Encalada:* Are populations of may-flies living in adjacent fish and fishless streams genetically differentiated?

52 *Danny Rejas, Steven Declerck, Johan Auwerkerken, Paulus Tak and Luc De Meester:* Plankton dynamics in a tropical floodplain lake: fish, nutrients, and the relative importance of bottom-up and top-down control

70 *Thomas Mehner, Markus Diekmann, Uwe Brämick and Roland Lemcke:* Composition of fish communities in German lakes as related to lake morphology, trophic state, shore structure and human-use intensity

86 *A. Elger and D. Lemoine:* Determinants of macrophyte palatability to the pond snail *Lymnaea stagnalis*

96 *Jochen Vandekerkhove, Steven Declerck, Luc Brendonck, José Maria Conde-Porcuna, Erik Jeppesen and Luc De Meester:* Hatching of cladoceran resting eggs: temperature and photoperiod

105 *Christopher F. Steiner:* Temporal stability of pond zooplankton assemblages

113 *Sarah A. Brown, Graeme D. Ruxton, Roger W. Pickup and Stuart Humphries:* Seston capture by *Hydropsyche siltalai* and the accuracy of capture efficiency estimates

127 *David W. Kelly and Jaimie T. A. Dick:* Introduction of the non-indigenous amphipod *Gammarus pulex* alters population dynamics and diet of juvenile trout *Salmo trutta*

141 *Mirosław Ślusarczyk, Piotr Dawidowicz and Ewa Rygielska:* Hide, rest or die: a light-mediated diapause response in *Daphnia magna* to the threat of fish predation

Applied Issues

147 *Simon Linke, Richard H. Norris, Daniel P. Faith and David Stockwell:* ANNA: A new prediction method for bioassessment programs

159 *Pierre Bady, Sylvain Dolédec, Christian Fesl, Sébastien Gayraud, Michel Bacchi and Franz Schöll:* Use of invertebrate traits for the biomonitoring of European large rivers: the effects of sampling effort on genus richness and functional diversity

174 *M. J. Kennard, A. H. Arthington, B. J. Pusey and B. D. Harch:* Are alien fish a reliable indicator of river health?

Opinion

194 *Alexander Sukhodolov:* Comment on drag and reconfiguration of macrophytes

196 *Kaj Sand-Jensen:* Aquatic plants are open flexible structures – a reply to Sukhodolov

199 Book Review

Volume 50, Issue 2, February 2005

Invited Review

201 *Colden V. Baxter, Kurt D. Fausch and W. Carl Saunders:* Tangled webs: reciprocal flows of invertebrate prey link streams and riparian zones

Original Articles

221 *R. A. Sanderson, M. D. Eyre and S. P. Rushton:* The influence of stream invertebrate composition at neighbouring sites on local assemblage composition

232 *B. J. A. Pollux, L. Santamaria and N. J. Ouborg:* Differences in endozoochorous dispersal between aquatic plant species, with reference to plant population persistence in rivers

243 *Debra S. Finn and N. Leroy Poff:* Variability and convergence in benthic communities along the longitudinal gradients of four physically similar Rocky Mountain streams

262 *Ryszard Kornijów, Kirsi Vakkilainen, Jukka Horppila, Eira Luokkanen and Timo Kairesalo:* Impacts of a submerged plant (*Elodea canadensis*) on interactions between roach (*Rutilus rutilus*) and its invertebrate prey communities in a lake littoral zone

277 *Jonathan P. Benstead, Linda A. Deegan, Bruce J. Peterson, Alexander D. Huryn, William B. Bowden, Keller Suberkropp, Karen M. Buzby, Adrian C. Green and Jay A. Vacca:* Responses of a beaded Arctic stream to short-term N and P fertilisation

291 *C. Butterwick, S. I. Heaney and J. F. Talling:* Diversity in the influence of temperature on the growth rates of fresh-water algae, and its ecological relevance

301 *Weston H. Nowlin, Jennifer L. Evarts and Michael J. Vanni:* Release rates and potential fates of nitrogen and phosphorus from sediments in a eutrophic reservoir

323 *Dagmar Frisch and Stephen T. Threlkeld:* Flood-mediated dispersal versus hatching: early recolonisation strategies of copepods in floodplain ponds

331 *Andrew J. Brooks, Tim Haeusler, Ivars Reinfelds and Simon Williams:* Hydraulic microhabitats and the distribution of macroinvertebrate assemblages in riffles

345 *David Moore, Mark O'Donohue, Corinne Garnett, Christa Critchley and Glen Shaw:* Factors affecting akinete differentiation in *Cylindrospermopsis raciborskii* (Nostocales, Cyanobacteria)

353 *S. Larsson, T. Forseth, I. Berglund, A. J. Jensen, I. Näslund, J. M. Elliott and B. Jonsson:* Thermal adaptation of Arctic charr: experimental studies of growth in eleven charr populations from Sweden, Norway and Britain

369 *N. Aberle, H. Hillebrand, J. Grey and K. H. Wiltshire:* Selectivity and competitive interactions between two benthic invertebrate grazers (*Asellus aquaticus* and *Potamopyrgus antipodarum*): an experimental study using ^{13}C- and ^{15}N-labelled diatoms

Applied Issues

380 *Daren M. Carlisle and William H. Clements:* Leaf litter breakdown, microbial respiration and shredder production in metal-polluted streams

Volume 50, Issue 3, March 2005

Original Articles

391 *Yonghong Xie, Shuqing An and Bofeng Wu:* Resource allocation in the submerged plant *Vallisneria natans* related to sediment type, rather than water-column nutrients

403 *B. Hänfling, P. Bolton, M. Harley and G. R. Carvalho:* A molecular approach to detect hybridisation between crucian carp (*Carassius carassius*) and non-indigenous carp species (*Carassius* spp. and *Cyprinus carpio*)

418 *Benoît O. L. Demars and David M. Harper:* Distribution of aquatic vascular plants in lowland rivers: separating the effects of local environmental conditions, longitudinal connectivity and river basin isolation

438 *Germán Orizaola and Florentino Braña:* Plasticity in newt metamorphosis: the effect of predation at embryonic and larval stages

447 *Marjo Tarvainen, Anne-Mari Ventelä, Harri Helminen and Jouko Sarvala:* Nutrient release and resuspension generated by ruffe (*Gymnocephalus cernuus*) and chironomids

459 *Rob J. M. Franken, Beata Waluto, Edwin T. H. M. Peeters, Jean J. P. Gardeniers, John A. J. Beijer and Marten Scheffer:* Growth of shredders on leaf litter biofilms: the effect of light intensity

467 *Anurani D. Persaud and Craig E. Williamson:* Ultraviolet and temperature effects on planktonic rotifers and crustaceans in northern temperate lakes

477 *Anssi V. Vähätalo, Robert G. Wetzel and Hans W. Paerl:* Light absorption by phytoplankton and chromophoric dissolved organic matter in the drainage basin and estuary of the Neuse River, North Carolina (U.S.A.)

494 *Tatjana Simčič, Simon Lukančič and Anton Brancelj:* Comparative study of electron transport system activity and oxygen consumption of amphipods from caves and surface habitats

502 *Blake Matthews and Asit Mazumder:* Temporal variation in body composition (C : N) helps explain seasonal patterns of zooplankton $\delta^{13}C$

516 *Suzanna G. Ribblett, Margaret A. Palmer and D. Wayne Coats:* The importance of bacterivorous protists in the decomposition of stream leaf litter

Applied Issues

527 *Hans S. Eikaas, Angus R. McIntosh and Andrew D. Kliskey:* Catchment- and site-scale influences of forest cover and longitudinal forest position on the distribution of a diadromous fish

Volume 50, Issue 4, April 2005

Original Articles

539 *Katrine Turgeon and Marco A. Rodríguez:* Predicting microhabitat selection in juvenile Atlantic salmon *Salmo salar* by the use of logistic regression and classification trees

552 *J. M. Elliott:* Day–night changes in the spatial distribution and habitat preferences of freshwater shrimps, *Gammarus pulex*, in a stony stream

567 *Jani Heino and Janne Soininen:* Assembly rules and community models for unicellular organisms: patterns in diatoms of boreal streams

578 *James L. Pretty, Donna J. Giberson and Michael Dobson:* Resource dynamics and detritivore production in an acid stream

592 *Marcelo L. de Souza and Timothy P. Moulton:* The effects of shrimps on benthic material in a Brazilian island stream

603 *Effie A. Greathouse, James G. March and Catherine M. Pringle:* Recovery of a tropical stream after a harvest-related chlorine poisoning event

616 *Guillermo Tell, Inés O'Farrell and Ruben Jorge Lombardo:* Euglenoid morphospecies replacement along a hydraulic gradient of the Lower Paraná Basin (Argentina)

627 *Stéphan Jacquet, Isabelle Domaizon, Sébastien Personnic, Angia Sriram Pradeep Ram, Mikal Hedal, Solange Duhamel and Télesphore Sime-Ngando:* Estimates of protozoan- and viral-mediated mortality of bacterioplankton in Lake Bourget (France)

646 *Lusha M. Tronstad, Bryan P. Tronstad and Arthur C. Benke:* Invertebrate seedbanks: rehydration of soil from an unregulated river floodplain in the south-eastern U.S.

656 *Kaori Kochi and Takashi Kagaya:* Green leaves enhance the growth and development of a stream macroinvertebrate shredder when senescent leaves are available

668 *J.-P. Descy, M.-A. Hardy, S. Sténuite, S. Pirlot, B. Leporcq, I. Kimirei, B. Sekadende, S. R. Mwaitega and D. Sinyenza:* Phytoplankton pigments and community composition in Lake Tanganyika

Applied Issues

685 *Brian S. Metts, William A. Hopkins and John P. Nestor:* Interaction of an insecticide with larval density in pond-breeding salamanders (*Ambystoma*)

697 *Pedro M. Anastácio, Vasco S. Parente and Alexandra M. Correia:* Crayfish effects on seeds and seedlings: identification and quantification of damage

705 *Lars-Anders Hansson, Christer Brönmark, P. Anders Nilsson and Kajsa Åbjörnsson:* Conflicting demands on wetland ecosystem services: nutrient retention, biodiversity or both?

715 *Brian R. Gray, Roger J. Haro, James T. Rogala and Jennifer S. Sauer:* Modelling habitat associations with fingernail clam (Family: Sphaeriidae) counts at multiple spatial scales using hierarchical count models

Volume 50, Issue 5, May 2005

Original Articles

731 *W. John O'Brien, Michael Barfield, Neil Bettez, Anne E. Hershey, John E. Hobbie, George Kipphut, George Kling and Michael C. Miller:* Long-term response and recovery to nutrient addition of a partitioned arctic lake

742 *Ulrich Hopp and Gerhard Maier:* Implication of the feeding limb morphology for herbivorous feeding in some freshwater cyclopoid copepods

748 *Kim Cheshire, Luz Boyero and Richard G. Pearson:* Food webs in tropical Australian streams: shredders are not scarce

770 *Elske M. Haas, Michiel H.S. Kraak, Albert A. Koelmans and Wim Admiraal:* The impact of sediment reworking by opportunistic chironomids on specialised mayflies

781 *Núria Bonada, Carmen Zamora-Muñoz, Maria Rieradevall and Narcís Prat:* Ecological and historical filters constraining spatial caddisfly distribution in Mediterranean rivers

798 *Nils Okun, Wolf-Christian Lewin and Thomas Mehner:* Top-down and bottom-up impacts of juvenile fish in a littoral reed stand

813 *Miguel Alvarez-Cobelas, José Luis Velasco, María Valladolid, Angel Baltanás and Carmen Rojo:* Daily patterns of mixing and nutrient concentrations during early autumn circulation in a small sheltered lake

830 *Johanna Laybourn-Parry, William A. Marshall and Harvey J. Marchant:* Flagellate nutritional versatility as a key to survival in two contrasting Antarctic saline lakes

839 *Dean A. Olsen and Colin R. Townsend:* Flood effects on invertebrates, sediments and particulate organic matter in the hyporheic zone of a gravel-bed stream

854 *Jolanda M. H. Verspagen, Eveline O. F. M. Snelder, Petra M. Visser, Klaus D. Jöhnk, Bas W. Ibelings, Luuc R. Mur and Jef Huisman:* Benthic–pelagic coupling in the population dynamics of the harmful cyanobacterium *Microcystis*

868 *J. Ivor Norlin, Suzanne E. Bayley and Lisette C. M. Ross:* Submerged macrophytes, zooplankton and the predominance of low- over high-chlorophyll states in western boreal, shallow-water wetlands

882 *Mark H. Olson, Melissa M. Hage, Mark D. Binkley and James R. Binder:* Impact of migratory snow geese on nitrogen and phosphorus dynamics in a freshwater reservoir

Applied Issues

891 *Ian Dodkins, Brian Rippey and Peter Hale:* An application of canonical correspondence analysis for developing ecological quality assessment metrics for river macrophytes

905 *Alan T. Herlihy, William J. Gerth, Judith Li and Janel L. Banks:* Macroinvertebrate community response to natural and forest harvest gradients in western Oregon headwater streams

920 Book Review

Volume 50, Issue 6, June 2005

Original Articles

921 *Sohei Kobayashi and Takashi Kagaya:* Hot spots of leaf breakdown within a headwater stream reach: comparing breakdown rates among litter patch types with different macroinvertebrate assemblages

930 *Maruxa Álvarez and Isabel Pardo:* Life history and production of *Agapetus quadratus* (Trichoptera: Glossosomatidae) in a temporary, spring-fed stream

944 *B. J. Robson, M. Hogan and T. Forrester:* Hierarchical patterns of invertebrate assemblage structure in stony upland streams change with time and flow permanence

954 *Aloysio da S. Ferrão Filho, William R. DeMott and Alan J. Tessier:* Responses of tropical cladocerans to a gradient of resource quality

965 *Kumud Acharya, Jeffrey D. Jack and Paul A. Bukaveckas:* Dietary effects on life history traits of riverine *Bosmina*

976 *Alison C. Iles and Joseph B. Rasmussen:* Indirect effects of metal contamination on energetics of yellow perch (*Perca flavescens*) resulting from food web simplification

993 *Joelle D. Young and Howard P. Riessen:* The interaction of *Chaoborus* size and vertical distribution determines predation effects on *Daphnia*

1007 *Pia Romare, Daniel E. Schindler, Mark D. Scheuerell, Jennifer M. Scheuerell, Arni H. Litt and Judith H. Shepherd:* Variation in spatial and temporal gradients in zooplankton spring development: the effect of climatic factors

1022 *J. M. Elliott:* Contrasting diel activity and feeding patterns of four instars of *Rhyacophila dorsalis* (Trichoptera)

1034 *Kaj Sand-Jensen, Jens Borum and Thomas Binzer:* Oxygen stress and reduced growth of *Lobelia dortmanna* in sandy lake sediments subject to organic enrichment

Applied Issues

1049 *Cassandra James, Jane Fisher, Victoria Russell, Sally Collings and Brian Moss:* Nitrate availability and hydrophyte species richness in shallow lakes

1064 *Leif K. Hembre and Robert O. Megard:* Timing of predation by rainbow trout controls *Daphnia* demography and the trophic status of a Minnesota lake

1081 *Jason P. Antenucci, Anas Ghadouani, Michele A. Burford and José R. Romero:* The long-term effect of artificial destratification on phytoplankton species composition in a subtropical reservoir

1094 *Stephanie Sylvestre and Robert C. Bailey:* Ecology of leaf pack macroinvertebrate communities in streams of the Fraser River Basin, British Columbia

1105 *Yong Cao, Charles P. Hawkins and Andrew W. Storey:* A method for measuring the comparability of different sampling methods used in biological surveys: implications for data integration and synthesis

Volume 50, Issue 7, July 2005

Original Articles

1117 *Kate H. Macneale, Barbara L. Peckarsky and Gene E. Likens:* Stable isotopes identify dispersal patterns of stonefly populations living along stream corridors

1131 *R. J. Stoffels, K. R. Clarke and G. P. Closs:* Spatial scale and benthic community organisation in the littoral zones of large oligotrophic lakes: potential for cross-scale interactions

1146 *Joseph D. Conroy, William J. Edwards, Ruth A. Pontius, Douglas D. Kane, Hongyan Zhang, John F. Shea, Julie N. Richey and David A. Culver:* Soluble nitrogen and phosphorus excretion of exotic freshwater mussels (*Dreissena* spp.): potential impacts for nutrient remineralisation in western Lake Erie

1163 *Elizabeth A. Bergey:* How protective are refuges? Quantifying algal protection in rock crevices

1178 *Troels Andersen, Ole Pedersen and Frede Ø. Andersen:* Nutrient concentrations in a *Littorella uniflora* community at higher CO_2 concentrations and reduced light intensities

1190 *Andrea Ballinger, Ralph Mac Nally and P. S. Lake:* Immediate and longer-term effects of managed flooding on floodplain invertebrate assemblages in south-eastern Australia : generation and maintenance of a mosaic landscape

1206 *Angus R. McIntosh, Hamish S. Greig, Shelley A. McMurtrie, Per Nyström and Michael J. Winterbourn:* Top-down and bottom-up influences on populations of a stream detritivore

1219 *Samuel Pirlot, Julie Vanderheyden, Jean-Pierre Descy and Pierre Servais:* Abundance and biomass of heterotrophic microorganisms in Lake Tanganyika

1233 *Manera E. Saloom and R. Scot Duncan:* Low dissolved oxygen levels reduce anti-predation behaviours of the freshwater clam *Corbicula fluminea*

1239 *Ian Jones, Glen George and Colin Reynolds:* Quantifying effects of phytoplankton on the heat budgets of two large limnetic enclosures

Applied Issues

1248 *Annette Baattrup-Pedersen, Nikolai Friberg, Søren E. Larsen and Tenna Riis:* The influence of channelisation on riparian plant assemblages

1262 *Serena Zaccara, Fabrizio Stefani and Giuseppe Crosa:* Diversity of mitochondrial DNA of the endangered white-clawed crayfish (*Austropotamobius italicus*) in the Po River catchment

1273 *M. J. Johnson, P. S. Giller, J. O'Halloran, K. O'Gorman and M. B. Gallagher:* A novel approach to assess the impact of landuse activity on chemical and biological parameters in river catchments

Volume 50, Issue 8, August 2005

Original Articles

1291 *Nanette J. Madan, William A. Marshall and Johanna Laybourn-Parry:* Virus and microbial loop dynamics over an annual cycle in three contrasting Antarctic lakes

1301 *Antje Gerloff-Elias, Elly Spijkerman and Hendrik Schubert:* Light acclimation of *Chlamydomonas acidophila* accumulating in the hypolimnion of an acidic lake (pH 2.6)

1315 *Daisuke Kishi, Masashi Murakami, Shigeru Nakano and Koji Maekawa:* Water temperature determines strength of top-down control in a stream food web

1323 *Deborah Rudnick and Vincent Resh:* Stable isotopes, mesocosms, and gut content analysis demonstrate trophic differences in two invasive decapod crustacea

1337 *Geneviève M. Carr, Antoine Morin and Patricia A. Chambers:* Bacteria and algae in stream periphyton along a nutrient gradient

1351 *Matthias Bergtold, Viktor Günter and Walter Traunspurger:* Is there competition among ciliates and nematodes?

1360 *Sonja E. S. Stendera and Richard K. Johnson:* Additive partitioning of aquatic invertebrate species diversity across multiple spatial scales

1376 *Margaret A. Brock, Daryl L. Nielsen and Katharine Crosslé:* Changes in biotic communities developing from freshwater wetland sediments under experimental salinity and water regimes

1391 *Cleber C. Figueredo and Alessandra Giani:* Ecological interactions between Nile tilapia (*Oreochromis niloticus*, L.) and the phytoplanktonic community of the Furnas Reservoir (Brazil)

1404 *J. Alex Elliott, Stephen J. Thackeray, Chris Huntingford and Richard G. Jones:* Combining a regional climate model with a phytoplankton community model to predict future changes in phytoplankton in lakes

1412 *Stefan Werner, Martin Mörtl, Hans-Günther Bauer and Karl-Otto Rothhaupt:* Strong impact of wintering waterbirds on zebra mussel (*Dreissena polymorpha*) populations at Lake Constance, Germany

Applied issues

1427 *R. C. Nijboer, P. F. M. Verdonschot and D. C. Van der Werf:* The use of indicator taxa as representatives of communities in bioassessment

Volume 50, Issue 9, September 2005

Original Articles

1441 *Zissis Mamuris, Maria Th. Stoumboudi, Costas Stamatis, Roberta Barbieri and Katerina A. Moutou:* Genetic variation in populations of the endangered fish *Ladigesocypris ghigi* and its implications for conservation

1454 *Ulrich Hopp and Gerhard Maier:* Survival and development of five species of cyclopoid copepods in relation to food supply: experiments with algal food in a flow-through system

1464 *Guntram Weithoff:* On the ecology of the rotifer *Cephalodella hoodi* from an extremely acidic lake

1474 *James H. Thorp and Sara Mantovani:* Zooplankton of turbid and hydrologically dynamic prairie rivers

1492 *Daisuke Nakano, Masamichi Yamamoto and Tokio Okino:* Ecosystem engineering by larvae of net-spinning stream caddisflies creates a habitat on the upper surface of stones for mayfly nymphs with a low resistance to flows

1499 *Helen R. Wilcock, Michael W. Bruford, Alan G. Hildrew and Richard A. Nichols:* Recruitment, kin and the spatial genetic structure of a caddisfly *Plectrocnemia conspersa* in a southern English stream

1515 *Suzanne N. Levine, Reglindis F. Zehrer and Carolyn W. Burns:* Impact of resuspended sediment on zooplankton feeding in Lake Waihola, New Zealand

1537 *Ger Boedeltje, Alfons J. P. Smolders and Jan G. M. Roelofs:* Combined effects of water column nitrate enrichment, sediment type and irradiance on growth and foliar nutrient concentrations of *Potamogeton alpinus*

1548 *André Witthöft-Mühlmann, Walter Traunspurger and Karl Otto Rothhaupt:* Meiobenthic response to river-borne benthic particulate matter – a microcosm experiment

Applied issues

1560 *Patrícia F. M. Nogueira, Maria da G. G. Melão, Ana T. Lombardi and Armando A. H. Vieira:* The effects of *Anabaena spiroides* (Cyanophyceae) exopolysaccharide on copper toxicity to *Simocephalus serrulatus* (Cladocera, Daphnidae)

1568 *F. Lepori and S. J. Ormerod:* Effects of spring acid episodes on macroinvertebrates revealed by population data and *in situ* toxicity tests

1578 *Jani Heino:* Functional biodiversity of macroinvertebrate assemblages along major ecological gradients of boreal headwater streams

Volume 50, Issue 10, October 2005

1589 *N. John Anderson, Erik Jeppesen and Martin Søndergaard:* Ecological effects of reduced nutrient loading (oligotrophication) on lakes: an introduction

1594 *Martin T. Dokulil and Katrin Teubner:* Do phytoplankton communities correctly track trophic changes? An assessment using directly measured and palaeolimnological data

1605 *Martin Søndergaard, Jens Peder Jensen and Erik Jeppesen:* Seasonal response of nutrients to reduced phosphorus loading in 12 Danish lakes

1616 *Erik Jeppesen, Jens Peder Jensen, Martin Søndergaard and Torben L. Lauridsen:* Response of fish and plankton to nutrient loading reduction in eight shallow Danish lakes with special emphasis on seasonal dynamics

1628 *Geoff Phillips, Andrea Kelly, Jo-Anne Pitt, Rory Sanderson and Eliot Taylor:* The recovery of a very shallow eutrophic lake, 20 years after the control of effluent derived phosphorus

1639 *J. Köhler, S. Hilt, R. Adrian, A. Nicklisch, H. P. Kozerski and N. Walz:* Long-term response of a shallow, moderately flushed lake to reduced external phosphorus and nitrogen loading

1651 *Helen Bennion, Penny Johnes, Robert Ferrier, Geoff Phillips and Elizabeth Haworth:* A comparison of diatom phosphorus transfer functions and export coefficient models as tools for reconstructing lake nutrient histories

1671 *Thomas A. Davidson, Carl D. Sayer, Helen Bennion, Carol David, Neil Rose and Max P. Wade:* A 250 year comparison of historical, macrofossil and pollen records of aquatic plants in a shallow lake

1687 *Brian Moss, Tom Barker, Deborah Stephen, Adrian E. Williams, David J. Balayla, Meryem Beklioglu and Laurence Carvalho:* Consequences of reduced nutrient loading on a lake system in a lowland catchment: deviations from the norm?

1706 *Susana Romo, María-José Villena, María Sahuquillo, Juan M. Soria, Mario Giménez, Teresa Alfonso, Eduardo Vicente and Maria R. Miracle:* Response of a shallow Mediterranean lake to nutrient diversion: does it follow similar patterns as in northern shallow lakes?

1718 *M. F. Coveney, E. F. Lowe, L. E. Battoe, E. R. Marzolf and R. Conrow:* Response of a eutrophic, shallow subtropical lake to reduced nutrient loading

1731 *Orlane Anneville, Sonja Gammeter and Dietmar Straile:* Phosphorus decrease and climate variability: mediators of synchrony in phytoplankton changes among European peri-alpine lakes

1747 *Erik Jeppesen, Martin Søndergaard, Jens Peder Jensen, Karl E. Havens, Orlane Anneville, Laurence Carvalho, Michael F. Coveney, Rainer Deneke, Martin T. Dokulil, Bob Foy, Daniel Gerdeaux, Stephanie E. Hampton, Sabine Hilt, Külli Kangur, Jan Köhler, Eddy H.H.R. Lammens, Torben L. Lauridsen, Marina Manca, María R. Miracle, Brian Moss, Peeter Nõges, Gunnar Persson, Geoff Phillips, Rob Portielje, Susana Romo, Claire L. Schelske, Dietmar Straile, Istvan Tatrai, Eva Willén and Monika Winder:* Lake responses to reduced nutrient loading – an analysis of contemporary long-term data from 35 case studies

1772 *Richard W. Battarbee, N. John Anderson, Erik Jeppesen and Peter R. Leavitt:* Combining palaeolimnological and limnological approaches in assessing lake ecosystem response to nutrient reduction

Volume 50, Issue 11, November 2005

1781 *Paul C. Frost, Wyatt F. Cross and Jonathan P. Benstead:* Ecological stoichiometry in freshwater benthic ecosystems: an introduction

1786 *Michelle A. Evans-White, Robert S. Stelzer and Gary A. Lamberti:* Taxonomic and regional patterns in benthic macroinvertebrate elemental composition in streams

1800 *Paul C. Frost, Helmut Hillebrand and Maria Kahlert:* Low algal carbon content and its effect on the C : P stoichiometry of periphyton

1808 *James J. Elser, John H. Schampel, Ferran Garcia-Pichel, Brian D. Wade, Valeria Souza, Luis Eguiarte, Ana Escalante and Jack D. Farmer:* Effects of phosphorus enrichment and grazing snails on modern stromatolitic microbial communities

1826 *James J. Elser, John H. Schampel, Marcia Kyle, James Watts, Evan W. Carson, Thomas E. Dowling, Carol Tang and Peter D. Roopnarine:* Response of grazing snails to phosphorus enrichment of modern stromatolitic microbial communities

1836 *Michelle F. Bowman, Patricia A. Chambers and David W. Schindler:* Changes in stoichiometric constraints on epilithon and benthic macroinvertebrates in response to slight nutrient enrichment of mountain rivers

1853 *Michelle A. Evans-White and Gary A. Lamberti:* Grazer species effects on epilithon nutrient composition

1864 *Stephen P. Glaholt Jr and Michael J. Vanni:* Ecological responses to simulated benthic-derived nutrient subsidies mediated by omnivorous fish

1882 *Teresa M. Tibbets and Manuel C. Molles Jr:* C : N : P stoichiometry of dominant riparian trees and arthropods along the Middle Rio Grande

1895 *Wyatt F. Cross, Jonathan P. Benstead, Paul C. Frost and Steven A. Thomas:* Ecological stoichiometry in freshwater benthic systems: recent progress and perspectives

Volume 50, Issue 12, December 2005

Original Articles

1913 *Haseeb Md. Irfanullah and Brian Moss:* Effects of pH and predation by *Chaoborus* larvae on the plankton of a shallow and acidic forest lake

1927 *Kaj Sand-Jensen and Niels L. Pedersen:* Differences in temperature, organic carbon and oxygen consumption among lowland streams

1938 *Per Nyström:* Non-lethal predator effects on the performance of a native and an exotic crayfish species

1950 *Vera Istvánovics, Márk Honti, András Osztoics, Hesham M. Shafik, Judit Padisák, Yossef Yacobi and Werner Eckert:* Continuous monitoring of phytoplankton dynamics in Lake Balaton (Hungary) using on-line delayed fluorescence excitation spectroscopy

1971 *P. A. Barker, J. M. Pates, R. J. Payne and R. M. Healey:* Changing nutrient levels in Grasmere, English Lake District, during recent centuries

1982 *W. Van Doorslaer and R. Stoks:* Thermal reaction norms in two *Coenagrion* damselfly species: contrasting embryonic and larval life-history traits

1991 *Takashi Asaeda, Takeshi Fujino and Jagath Manatunge:* Morphological adaptations of emergent plants to water flow: a case study with *Typha angustifolia, Zizania latifolia* and *Phragmites australis*

2002 *Alicia S. Schultheis and Jane M. Hughes:* Spatial patterns of genetic structure among populations of a stone-cased caddis (Trichoptera: Tasimiidae) in south-east Queensland, Australia

2011 *Carina Pålsson, Emma S. Kritzberg, Kirsten Christoffersen and Wilhelm Granéli:* Net heterotrophy in Faroe Islands clear-water lakes: causes and consequences for bacterioplankton and phytoplankton

2021 *J. M. Elliott:* Ontogenetic shifts in the functional response and interference interactions of *Rhyacophila dorsalis* larvae (Trichoptera)

2034 *J. R. Leathwick, D. Rowe, J. Richardson, J. Elith and T. Hastie:* Using multivariate adaptive regression splines to predict the distributions of New Zealand's freshwater diadromous fish

2053 *Anders Hargeby, Henrik Blom, Irmgard Blindow and Gunnar Andersson:* Increased growth and recruitment of piscivorous perch, *Perca fluviatilis*, during a transient phase of expanding submerged vegetation in a shallow lake

2063 *Thomas R. Anderson and Dag O. Hessen:* Threshold elemental ratios for carbon versus phosphorus limitation in *Daphnia*

2076 *Janne Soininen, Petra Tallberg and Jukka Horppila:* Phytoplankton community assembly in a large boreal lake – deterministic pathways or chaotic fluctuations?

2087 *Mäggi Hieber, Christopher T. Robinson, Urs Uehlinger and J. V. Ward:* A comparison of benthic macroinvertebrate assemblages among different types of alpine streams

2101 *J. Barahona, A. Millan and J. Velasco:* Population dynamics, growth and production of *Sigara selecta* (Fieber, 1848) (Hemiptera, Corixidae) in a Mediterranean hypersaline stream

2114 *Rita S. W. Yam and David Dudgeon:* Inter- and intraspecific differences in the life history and growth of *Caridina* spp. (Decapoda: Atyidae) in Hong Kong streams

2129 *E. T. Bauder:* The effects of an unpredictable precipitation regime on vernal pool hydrology

Applied Issues

2136 *Bernhard Statzner, Pierre Bady, Sylvain Dolédec and Franz Schöll:* Invertebrate traits for the biomonitoring of large European rivers: an initial assessment of trait patterns in least impacted river reaches

Opinion

2162 *Julian C. Green:* Further comment on drag and reconfiguration of macrophytes
